

INTRODUCING A NEW PARKING SYSTEM

PICK YOUR PAYMENT METHOD

EZ PASS PLUS

- Once you enter through an EZPass Plus lane, your EZPass tag will be read upon entry and the gate will open.
- To exit, you must go through a new system exit lane where your EZPass tag will be read automatically and the gate will open.
- You will not receive a ticket with this method.
- If you do not want to pay using your EZPass, you can choose a non-EZPass Plus lane or remove your EZPass tag from your window when entering.

CREDIT CARD

- Using the Credit Card payment method, you will pay by inserting your credit card into the machine and the gate will open automatically upon entering.
- To exit, insert the same credit card you used to enter and the gate will automatically open.

PAYING WITH CASH?

- When entering, press the button to receive a ticket.
- We recommend using the pay-on-foot station located in the baggage claim to pay for parking while waiting for your baggage.

USING PAY-ON-FOOT STATIONS (NOT FOR EZ PASS PLUS CUSTOMERS)

- When entering, press the button to receive a ticket.
- You can pay for parking at an automated pay-on-foot station located in baggage claim near carousel #2 upon returning.
- Next, you will insert the ticket into the machine. Once your payment has been processed, your ticket will be returned to you.
- You will be able to exit within the allotted grace period. Your license plate number will be read upon exiting and the gate will automatically open.
