

The Albany International Airport continues to operate although our airlines have substantially decreased their daily flight schedules.

“Our mission during this critical period is to provide a clean and safe environment for our passengers and staff while maintaining airport operations for our airlines,” said Philip Calderone, CEO of the Albany County Airport Authority.

In mid-February, the Albany County Airport Authority assembled a COVID-19 Task Force that meets regularly, to ensure that the airport is employing best practices and addressing all new issues as they arise.

Members of the task force include Albany County Airport Authority, Albany County Health Department, Department of Homeland Security, Transportation Security Administration (TSA), Airport Management, Airport Rescue & Firefighting Department, and the Albany County Sheriff’s Office.

Ongoing steps include:

- Require all persons to wear a mask while inside the terminal
- Practicing social distancing
- Activation of the Airport Authority’s Quarantinable Disease Response Plan
- Activation of Airport Fire Department’s Pandemic Response Plan
- Daily deep cleaning and disinfecting of all airport & TSA facilities
- Distribution of small hand sanitizer bottles to passengers and visitors
- Installation of hand wipe stations throughout the terminal

The Airport Authority is continually monitoring the life cycle of the Coronavirus (COVID-19) and is following the guidance of the Centers for Disease Control (CDC) the New York State Health Department and the Albany County Health Department.

The TSA has made modifications to checkpoint procedures. Please click here for the latest information.
